

ASSIGNMENT #10 DUE: JULY 10

GRADUATE SCHOOL MATRIX

At this point in time, you should all have a pretty good idea about the schools/programs that you are interested in and you should be accessing complete information for each. Maureen will be reviewing your matrix and setting up an appointment to go over any items that may be a challenge for you. The expectation is that **your matrix is continually growing with information for your top-choice schools**. The more information you can collect and prepare during the summer – the better!

Assignment: The following items should be **nearing completion** at this time.

- **Schools Explored** – you should be keeping track of all of the programs you have explored to date
- **School Rankings** – you should have at least six programs inserted and ranked according to the criteria
- **Finalized School List** – try to finalize your list of schools as much as possible at this point in time; we understand that you are obviously going to continue to explore programs; it is to your advantage to solidify this list by the end of summer and thoroughly research each of your top programs
- **Timeline** – you should insert your established deadlines and tailor items as needed
- **School Data Sheets** – you need to complete at least ONE for your top school; your top-six is recommended
- **National Fellowships** – you should be able to find at least two, if not more
- **Info Sheet for Recommenders** – this should be completed for at least ONE of your top schools; your top-six is recommended
- **SROP's** – for those of you with additional time, you are required to research these opportunities as possibilities
